| Brand | EVs Model | Charging | Discharging | Remarks |
|---|---|---|---|---|
| **EV CCS2** | | | | |
| **BYD** | BYD Atto 3 | Supported | Supported | |
| | BYD Sealion 6 | Supported | Supported | |
| | BYD Sealion 7 | Supported | Supported | |
| | BYD Seagull | Supported | Supported | |
| | BYD Seal | Supported | Supported | |
| | BYD Dolphin | Supported | Supported | |
| | BYD K9 | Supported | Supported | |
| **NIO** | EL6 | Supported | Supported | |
| | EL8 | Supported | Supported | |
| | ET5 | Supported | Supported | |
| | ET5 Touring | Supported | Supported | |
| **Tesla** | Tesla Model 3 | Supported | Not Supported | |
| | Tesla Model Y(2025) | Supported | Supported | |
| **ZEEKR** | ZEEKR 001 | Supported | Supported | |
| | ZEEKR X | Supported | Supported | |
| | ZEEKR 7X | Supported | Supported | |
| | ZEEKR 7GT | Supported | Supported | |
| **Polestar** | Polestar 2 (2025) | Supported | Supported | |
| | Polestar 4 (2025) | Supported | Supported | |
| | Polestar 3 | Supported | Supported | |
| **Volvo** | Volvo EX30 | Supported | Supported | |
| | Volvo EX30 2025 | Supported | Supported | |
| | Volvo EX90 | Supported | Not Supported | |
| **Hyundai** | Hyundai Ioniq 5 | Supported | Supported | |
| | Hyundai Kona | Supported | Supported | |
| **XPeng** | XPeng P7+ | Supported | Supported | |
| | XPeng G9 | Supported | Supported | |
| | XPeng X9 | Supported | Supported | |
| | XPeng G6(2024) | Supported | Supported | |
| **MG** | MG MG4 | Supported | Supported | |
| | MG MG5 | Supported | Supported | |
| **Geely** | Geely EX5 | Supported | Supported | |

| Brand | EVs Model | Charging | Discharging | Remarks |
|---|---|---|---|---|
| **BMW** | BMW iX xDrive40 (2025) | Supported | Supported | |
| | BMW i4 | Supported | NG | |
| | BMW i5 | Supported | NG | |
| | BMW i3s | Supported | NG | |
| **Chery** | Chery Tiggo 4 Pro/Urban | Supported | Supported | |
| | Chery E5 | Supported | Supported | |
| **GWM** | GWM ORA GT | Supported | Supported | |
| **KIA** | KIA EV3 2026 | Supported | Supported | |
| | KIA EV4 2026 | Supported | Supported | |
| | KIA EV6(2023) | Supported | Supported | |
| | KIA EV9(2023) | Supported | Supported | |
| | KIA NIRO | Supported | Not Supported | |
| **Mercedes** | Mercedes EQC400 | Supported | Not Supported | |
| | Mercedes EQB | Supported | Not Supported | |
| **Renault** | Renault KWID E- Tech | Supported | Supported | |
| | Renault Zoe | Supported | Supported | |
| **VW** | VW ID4 | Supported | Not Supported | |
| | VW ID5(2025) | Supported | Not Supported | |
| | VW ID7(2025) | Supported | Supported | |
| | VW e-up | Supported | Supported | Discharge power < 2 kW |
| | Cupra | Supported | Supported | |
| **Audi** | Etron | Supported | Not Supported | |
| | Q6 | Supported | Not Supported | |
| | Q8 | Supported | Not Supported | |
| **Skoda** | Skoda Enyaq iV | Supported | Not Supported | |
| | Skoda Elroq85 | Supported | Not Supported | |
| | Skoda Enyaq 2025 | Supported | Not Supported | |
| **Smart** | Smart3 | Supported | Supported | |
| **FOTON** | eAUMARK Truck | Supported | Supported | |
| **Fiat** | fiat500 | Supported | Supported | |
| **MINI** | mini cooper | Supported | Not Supported | |
| **Renault** | Magan | Supported | Supported | |
| **Mazda** | Mazda 6E 2026 | Supported | Supported | |

| Brand | EVs Model | Charging | Discharging | Remarks |
|---|---|---|---|---|
| **Opel** | Opel E-Corsa | Supported | Not Supported | |

**NOTE**

- Bidirectional charging has been verified to work on the tested EVs listed above. However, some EVs manufacturers may not provide warranty coverage for using the EVs battery in bidirectional charging applications.
- The data shown is based on actual test results submitted by users worldwide. Real-world performance depends on whether the EVs manufacturer has enabled the relevant bidirectional charging functionality on that specific model.
- Performance may vary by region, software version, and model year. This list is for reference only and indicates that a given EVs model is capable of bidirectional charging via V2G/V2X.
